Guest Speakers

Anthony Goode
Land Programs Coordinator, WGCMA

Dr Adrian Clements
Hydrologist, Environmental Water Holder

As mine closures, the energy transition and new industries reshape the Latrobe Valley, decisions about water and land will matter across the whole catchment.

Join us to hear from technical specialists Anthony Goode and Dr Adrian Clements from the WGCMA, and explore what these changes mean for our region.

The evening will also include discussion of the draft LCLN 2027–30 Strategic Plan—your chance to help shape Landcare's priorities for the years ahead.
