

To mark National Tree Day on Sunday 31 July, Neerim District Landcare is making a special offer to local landholders.

If you are planning a revegetation project on your property in 2023, we can help.

Thanks to the volunteer growers from TreeProject, we have ordered 1,000 indigenous tree seedlings for planting next autumn.

The diverse species will be available in batches of 40-80 trees subject to availability.

Planting equipment can be loaned, and we hope to have some volunteers to help plant.

IF you are interested in participating, please contact Info@ndlg.org.au
